

Industrial Welding Equipment

4" Bench Socket (W3500)

The 4" Bench Socket (W3500) is a bench style tool ideal for conducting socket fusion of larger diameter pipe and fittings. It is capable of welding 1/2" to 4". Special angled clamps simplify pipe and fittings clamping. A simplified process means little change out is required when switching sizes. Mechanical stops automatically set the socket depth for a perfect weld every time.

The 4" Bench Socket is ideal for bench type welding. The supplied shipment crate doubles as a convenient stand for mounting the equipment.

Features:

- Welds 20 -110mm (1/2" - 4")
- Ideal for PE, PP, PVDF
- Socket Fusion
- Motion of the Slides is Controlled by a Rack-and-pinion Mechanism
- Heating Element is Built into the Machine
- Adjustable Stops Assures Quality Welds through Size Range

Includes:

- Base Machine
- Silverstone Heater Inserts* (only included if purchasing tool):
20, 25, 32, 40, 50, 63, 75, 90 and 110mm
- Table Locking Device
- Allen Wrenches
- Electronic Heating Element
- Size 2 Beveling Tool 1" - 4"
- Clamping Arm Extension 20 - 40mm
- Crate: 32" x 27" x 33"
- Weight: 240 lbs
- 110 VAC

Part Number: 5711000
List Price: \$13,600.00

Available for Rental
Part Number: 9711000
Rental Rate: See Page 21

* Heater inserts and scraper tools are sold separately and not included with tool rental
