

4" Bench Socket

The W3500 is a Bench style tool for conducting Socket Fusion of larger diameter pipe & fittings. It is capable of fusing from 1/2" to 4" pipe and fittings.

Special angled clamps make pipe and fitting clamping simplified with little change out required when switching sizes. Mechanical stops automatically set the socket depth for a perfect weld each time.

The 4" Bench shipment crate supplied doubles as a convenient stand for mounting the equipment.

4" Bench Socket

Features:

Welds 20 -110mm (1/2" - 4")
pipe & fittings -PE,PP, PVDF
