Re: 2" Square Operating nuts for Gear-operators for 1-1/2" – 16" Butterfly Valves

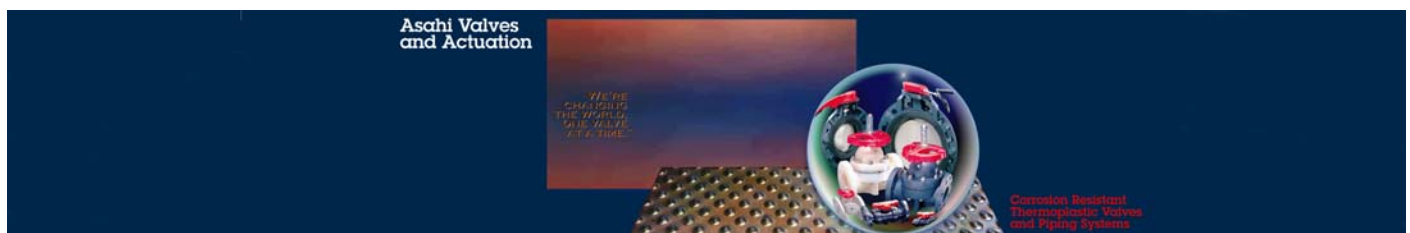

In recent months, Asahi/America, Inc. has experienced multiple changes with regards to the Gear-Operators being offered on butterfly valves sizes 1-1/2" – 16". Not only have we produced our own Gear-Operator, the Plasgear™, Mastergear® who supplies all our metallic gear-operators has made revisions to their existing gear-operators. Below are representative photos of the present and past Gear-operators, with the appropriate part numbers for 2" Square-operating nuts. When placing your order, please use this document as a guide in selecting the appropriate part number for any 2" square operating nut to be retro-fit onto existing gear-operators already in service. This document is only for adding square nuts to gear-operators already in service, if Asahi is providing the Gear-operator with the Square nut already attached, we will select the appropriate square nut.

Above represents the Plasgear™ operator use the following part numbers when ordering 2" Square Nuts:

p/n 3766100 – 2" Square Nut for PLASGEAR™
for 1-1/2" – 10" T-57 butterfly valves

p/n 3766160 – 2" Square Nut for PLASGEAR™
for 12" – 16" T-57/56 butterfly valves
