

Purad™ PVDF Vent

The Smart Choice for Critical Exhaust

Tired of the high material costs and installation limitations of lined steel vent systems?

Purad™ Vent Systems offers significantly lower material costs and easier installations.

Purad™ Vent Benefits

- Excellent flame resistance, FM 4910 approved and UL94 rated V0.
- Faster installation through plastic welding methods.
- System can be easily fabricated onsite to fit actual piping needs.
- Lightweight material is easier to handle and support.
- Solid PVDF construction provides the most reliable resistance and longest life.

Wide Component Range

Our product range includes all standard components from elbows to flanges.

We offer a variety of specialty components including ***Damper Valves, Sanitary Adapters and Flex Connects.***

Product Specifications

Material: Purad™ PVDF (Solef® natural)

Size Range: 2" (63mm) – 16" (400mm)*

Welding Methods: IR Fusion, Butt Fusion and Hot Gas Welding

*Size range may vary by component
