

## SP 250: Fully Automated Welding IR Fusion

IR Fusion for:  
PVDF, PP, PPn, ECTFE

The first generation of SP series welding equipment, offering touchscreen control of IR welding process. Fully automated clamps, planer and heater make welding large diameter spools manageable. The joining pressure is constantly monitored to ensure a perfect weld, every time.

### Features:

Welds: 75mm (2-1/2") - 250mm (10") SDR pipe

The large size range of the tool allows the user to work without the need for multiple tool sizes on a project. Clamp Inserts are stored inside the machine to make pipe change over quick. Compact footprint makes the SP250 ideal for tight cleanroom useage.

### Includes:

Touchscreen Monitor  
Clamp Insert Set  
Level 3 PCMCIA Card  
Thermal Printer  
Crate: 56" X 41" X 48"  
Weight: 1960 lbs.  
Voltage: 230 VAC  
Frequency: 50/60 Hz

**(We recommend tool is only used on dedicated circuit)**
