

Trench 6 (W4400)

The Trench 6 (W4400) is a compact trench tool capable of fusion welding from 50mm (1 1/2") to 160mm (6"), as well as 4x6 Poly-Flo. The equipment features an electric planer and heating element, with hydraulic driven clamps. The hydraulic unit also serves as the control box and power supply box. Light weight, rugged, works in vertical and horizontal positions.

Features:

- Compact Design, Ideal for Inside Trenches
- Breaks Down to Three Clamps for Tight Quarters.
- Rugged Frame for Industrial Applications
- Adjustable Speed to Control Change Over Time
- Adjustable Heating Element Temperatures
- Powerful Planer with Safety Shut-off Switch
- Lever Actuated Operation
- Relatively Light Weight
- Can do Vertical or Horizontal Welds

Part Number: 5792000
 List Price: \$25,350.00
