

January 23, 2023

Dear valued customer,

Due to new cost increases of raw materials, we will be publishing new list prices for the Industrial Piping Products as listed below.

It is always our goal to provide at least 30 days of notice on any affected price changes. However, due to some instability from our global suppliers, it is necessary to update our list prices on our industrial piping products, effective February 1, 2023.

On February 1, 2023, all new quotes and new orders shall be based upon new list prices. All existing orders and standing quotations containing special project pricing, shall be reviewed and are subject to price changes per our Project Terms & Conditions Addendum. Please contact your regional manager for details or updates.

Please note, once made available, the price book will only be accessible in PDF and Excel formats. Printed copies will not be available.

Here is a summary of the changes to the **2023 industrial piping price book:**
