

Advanced PE Coiled Pipe

Asahi/America is now offering Chem Proline® pipe in coils, current sizes offered are ¾" (25mm) SDR7 and 1" (32mm) SDR11. Both available in either 50 meter (164') or 100 meter (328') coils.

Eliminate the labor to weld multiple straight lengths together for long chemical feed lines. Advanced PE is great for direct burial with the added benefit of reduced stress cracking properties caused by environmental point loads.

New sizes to be added as project needs develop, contact Asahi/America with your needs today.

COILED PIPE 50 and 100 meter coils

Size		Dimensions			SDR7 / MOP 150 PSI	
mm	inch	OD	s	Coil Lth m/ft	Weight Lbs/coil	Part Number
